2012 Conservation Innovations Grant Summary.docx

Thank you for your help getting information to support this proposal to USDA NRCS. Attached is a summary that incorporates some of the comments you made in the earlier draft. Please review this draft and make edits you think are needed. Please feel free to use this to communicate with Dennis. I understand the difficulty of waiting given the significant time pressure we are under. Dick will be making calls to other directors as soon as he is able, but with the legislature in session, you can understand the pressures on his time. Thank you for your help. Please do not hesitate to call.
