History: This message has been replied to and forwarded .

Okay. She can talk with Ted. We cannot wait. Dick left a message with him. I think I will drive up in time to be at Helen's office in person in Lacey and then continue on to EPA for our 11:30 with Michele. You think she would be okay with that? I think face time is important.

Yes, I can dial you both and set up the conference call, so I will call your cell phone at 8:00 am Thursday. I will tell her to give Ted another day before sharing the news about the proposal with her boss, unless you'd rather she wait longer.

Sounds good let's get on the phone at 8:00. Dick Pedersen has left a message with Ted. I will be on the road. I will pull over. Do you have the ability to dial us both in?

She's only available 8 - 9 am and has blocked the time to be available to us until she hears otherwise. Is that too early for you to be there in person (with me in Seattle) or take the call from up here? Or at a rest area on your way up?

To set the stage for the conversation I did tell her about the proposal you are working on but asked her not to tell her boss for another day or so, to give you a chance to tell me that Dick Pedersen has talked to Ted Sturdevant. She's nervous about it but understands that if they don't get on board with some conversations like this, they will get left behind and then bad things could happen to them politically. She said if this 8 am time doesn't work for you, she trusts me to convey her concerns to you.

Actually Lacey is 70 miles/1hr 15 min. south of Seattle. We could talk to her on the phone from here

because I don't think it makes sense for me to drive down there just for this conversation. I'll call her now and check her availability in mid to late morning, and let you know. She called me about something else so it won't be a quick conversation but I'll email you her response..

RE: Meeting with Ecology

I want to talk with you and Helen together. I want to get some time with you on the CIG proposal. I do not want to craft this in isolation. Face time early is important. I can come up early on Thursday so we can do it before our SRF meeting. If she can come to your office that is great. If not, maybe we can meet in Lacey. Lacey is close right?

Hi David,

I just now realized my email lost its connection a few hours ago - I was wondering why I was having such a slow email day! I can invite Helen Bresler but I need to tell her what you want to discuss - the SRF issue or trading in general? Are you expecting to have that meeting on the phone or in person at Ecology's HQ in Lacey?

Ecology

Claire do you think there is any chance we could get a meeting with staff person you work with at ecology on Thursday morning early? I am hopeful that you and I could meet with her in advance of the meeting on SRF later that morning? They are in Lacey right?
