Folks, I know you are putting your letters together. Thank you for that. As you all know the best applicant for this particular funding source would have been a state regulatory agency, but that had a number of limitations (i.e. requirements for legislative approvals) that I have discussed with each of you individually. As a result, Willamette Partnership will be the applicant, but we need to indicate as clearly as possible that this project is for direct work with state regulatory agencies on joint regional guidance. As a result we need a title that has some of those key words. It is clunky, I know, but I think the title below has the right words.

In your letters of support and commitment to participate if funded, you please reference the title:

Multi-State Regulatory Agency Guidance for Water Quality Trading: State agencies building shared trading policies & tools for the Pacific Northwest and beyond.

Thanks for your help.

David Primozich

Director of Ecosystem Services
