NRCS CIG 2-26-12.docx

Christine, Claire, Paula, Alan,

The current draft is attached. We will still be tweaking on the edges and polishing this week, but the substance of what we are trying to accomplish won't change. Please let me know what we can do to help facilitate a letter from EPA. We would like to have signed PDF copies by close of business Tuesday.

Bobby, The draft looks good. I made some very slight modifications to language, simple stuff like changing "investors" to buyers. I think it is ready to send it off to agencies for review. Alan, I still think this will benefit from your perspective about why we need this now.

I will send the attached version out first thing in the morning to the leads plus Christine, Paula, and Greg. Alan if you have any comments before let me know. You will still be able to massage it this week.

Thanks for your work on this bobby.

Hope the gala went really well last night and you're recovering. I think the CIG is in pretty good shape, and at a point ready to ship to agencies. I'm attaching the full narrative (3-p summary, narrative, and supplemental info). We're just under the page limit, but could use a little extra space for graphics and the workplan table. I've also attached the budget spreadsheet—do we want to share this with the agencies too?

Here are the remaining gaps I see:

- Letters from the agencies
- 2-p resumes from project personnel (these are optional and don't count toward the page limit)
- Budget narrative (can you all send me the narrative from your current CIG, so I can use that as a base?)

If I don't hear from you by Monday morning, I'll go ahead and ship these off to the agencies. Thanks guys!!!
