History: This message has been replied to.

Claire, how does Thursday morning at 10:30 look for you? A conversation with both of you will be timely. Based on the excellent meetings we had while in DC last week, we are coordinating a new large grant to be led by the state DEQ's in Oregon Washington and Idaho to create joint guidance on the use of offset credit trading programs. It is just crucial that we get consistency among the states right now.
