Subject: Request for CIG Grant Support Letter-time sensitive

Hello Jim,

Thank you for taking the time to assist Idaho Watershed Solutions, Inc. to hopefully obtain a letter of support from EPA-Region 10 for our NRCS grant proposal. I apologize in advance for the very short fuse. The applications are due this Friday, March 2nd. If EPA is willing to provide a letter of support and there is not sufficient time to provide the actual letter before Friday, we could with EPA's permission, state that a support letter is forthcoming but will follow at a later date.

I have attached two documents. The first is a draft three page summary of the grant proposal to be submitted by Idaho Watershed Solutions Inc. We are still working on and refining the 15 page grant proposal. The second document is a just received letter of support from the Idaho NRCS office. There are two paragraphs in this letter that describe the structure and mission of Idaho Watershed Solutions, Inc. I think this letter provides some helpful information.

Please let me know what I can do on my end to help move this through EPA management.

Thank you for your kind attention to this request. Mark Masarik
