Hi everyone,

Attached are the summaries/notes from January's convening interviews with ODEQ, EPA, and WA Ecology (IDEQ coming very soon). We apologize for the slow turn around, we are getting all of our internal systems dialed in to be much much faster for the workshops. If you have any written comments on the Tier 1 discussion draft that haven't found their way to me, please send them along.

Also, I managed to give the wrong month for some dates in my previous timeline of events leading up to the April 9-10 Interagency Workshop. The correct dates are below, look for the first round of materials in the middle of next week.

- **March 8th** - All attendee RSVP to Musa Jaman, submit comments on draft agenda to Carrie Sanneman
- **March 13th** - Receive a draft outline of Tier 2 and Guiding Principles for water quality trading
- **March 22nd** - Submit comments on Tier 2 Outline and Guiding Principles to Willamette Partnership
- **March 26th** - Receive meeting materials to review prior to the workshop
- **April 9th and 10th** - Workshop #1 at Alderbrook Resort, WA

All notes, materials and action items are posted up on the [project website](#) homepage under either "Upcoming Meetings" or "Recent Meetings".

Please follow up with other questions.

Carrie
