Hi Bill,

Hope Scott's talk was well received today. The documents you attached – I only counted three, not four as his message mentioned – are all very familiar to me. I think I've provided them to Bobby and David P. before but it never hurts to send them again. I will take care of that for us, but if the missing fourth one is important too, let me know what is.

I talked with Scott today and he sent me these documents that I thought the current trading workgroup might find useful. Have you already provided these to the Oregon guys? Let me know what you think.

Bill

Bill,

It was good catching up with you today at the TAC meeting. It's nice to know that while change is constant, some things remain the same... it looks like you'll have your hands full with the Lower Boise Phosphorus TMDL for the foreseeable future. Good luck and don't be a stranger. Attached are the documents you requested and a couple others you didn't. Please respond to my email to let me know you received the 4 attachments.

Thanks,

Scott
