Water Quality Trading Team,

Below is the message from the Willamette Partnership explaining all the documents that we should look through before the meeting, to prepare us for the topic-specific discussions. Since I figured that no one besides me is registered for the project website, where they posted all the documents (and if you'd like to be, then send Carrie Sanneman an email since I don't think you can do that without her inviting you), I am attaching them to my message

Chae – since you are unable to attend the meeting, please look through the documents anyway and let me or Dustan know your comments, questions, and concerns.

Bob – I'm sorry, but they won't be able to offer you a phone line to participate remotely since they can't be sure the group discussions will be picked up very well, so I hope you can still review the documents in advance and let me know any comments or concerns you have. I will fill you in after the meeting, plus there will be more documents summarizing the meeting as well as structuring the decisions made on the specific topics into the first draft Joint Regional Agreement (JRA) for us to comment on.

And I heard back from OGC that they approved our ethics forms, so that we can accept the Willamette Partnership's offer to pay our lodging, meals and travel costs, so the next step will be to prepare no cost TAs. I will work with the OWW & IOO administrative staff to get that done in the next few days or early next week. I also have our two GOV cars reserved, so we can leave at about 8 am on April 9 and get there in time for the 10 am start time.

Questions? Please call or reply.

Subject: JRA Workshop #1 Materials and Logistics

Hi everyone,

We're very excited for the JRA Workshop in 2 weeks, April 9th and 10th in Union, WA at the Alderbook Resort. A revised agenda is attached and all materials are now up on the [project website](#). A few things to cover in preparation for the workshop:

Follow up on Tier 2 Outline, Guiding Principles: Thank you to everyone who was able to provide comments on the preliminary materials sent out two weeks ago. We've incorporated and summarized changes into new

versions. During the workshop, we'll go over your comments and where we ended up. The "Meeting Drafts" of these document are on the project website under materials for Workshop #1.

Agenda: The revised agenda is attached. It has been expanded to include short descriptions of each section and some of the questions we anticipate discussing. We have added an additional 30 min to discuss communication with external groups.

Workshop Materials: We've prepared Discussion Guides for each block of the agenda. The Discussion Guides frame the issue, pose questions to consider, and, where applicable, provide options and initial recommendations. These will be critical to the workshop discussions, please review them prior to the workshop. They are posted on the website, covering:

- Eligibility criteria
- Project implementation and quality standards
- Pilot project brainstorming guide
- Verification, certification, registration

Logistics: Please see the last page of the agenda for driving directions. When you arrive, head into the main lobby and they will have signage directing you to our meeting space. We'll email you individually next week to confirm and provide any other info that you'll need on accommodations. Alderbrook's website is:

<http://www.alderbrookresort.com/>

Since technical staff are not attending this workshop, I haven't included them on this email, but please forward or review these materials with others in your agency that can help inform the discussion.

Please give me call or email with any questions or concerns.

Best,
Carrie
