David & Kelly – FYI. I think whatever time either of you has to spare for this meeting will be fine, or we can find another way to support what Joe is looking for. The meeting does provide a good opportunity to learn about this Medford trade in great detail, so that you can better understand how we hope to shape a regionally consistent approach to water quality trading.

Subject: March 18 Meeting and David Allnutt

Claire,

Bobby mentioned to me that you wanted some clarification on my interest in having David Allnutt sit in on the March 18th briefing on the Medford Permit and water quality trading in Oregon.

As you know, we circulated a discussion draft of the Tier 1 authorities section (the latest version is attached) in order to begin the conversation on what the participants' might want to include in such a section. My hope is to begin a discussion between the DOJ/AJ/OGC attorneys on this issue in parallel with the ongoing discussions amongst the agencies' staff on the protocols and standards of water quality trading that would be included in Tiers 2 and 3. My understanding is that David Allnutt is likely the best person to serve that role for Region 10, but I could be mistaken. I know that Kelly Gable from Region 3 has been providing some guidance on water quality trading, but I assume she wouldn't be able to make the March 18 meeting in person.

The March 18 meeting will provide David with some context of an example of water quality trading in Region 10. It might also inform him as to who he would like to include in the Tier 1 discussions. I hope he, or one of his attorneys, will be able to make it.

Regards,

Joe
