Subject: March 18 meeting invitation - water quality trading

David,

I will be sending you an electronic invitation to a meeting on March 18 at which your participation is optional. The meeting will be in 15-D/K, 1:30 – 4:30 pm. The topic is the City of Medford's temperature trade, to learn about its Rogue River TMDL context, the details of the NPDES permit's development and provisions, and how the credits are established, verified, recorded and audited. The Willamette Partnership and The Freshwater Trust, who are running the meeting, suggested that you be invited, which I gather is due to conversations you've had with Joe Furia about the legal authorities for trading, but also because of meetings they would like to have with states' AG's offices. I've asked them to explain that more in writing, so you could decide if you need to be at this meeting, or if we should address their concerns in another way, but they are still working on that explanation. In the meantime, I thought it would be good to alert you to the meeting and find out if you are even available that afternoon for all or a portion of that time.

-- Claire
