Dustan – I hope you don't mind that I volunteered you for the BMP subgroup. I didn't even know this group was formed, but they've only met via phone once. Dru Keenan inadvertently volunteered to be on it at the April meeting but now would like to decline. I thought you would be good to have on it (along with Bill Stewart, who's already on it). I want to be on the mailing list at least, but if you can't make their next call, I will try to participate as well. I'll forward the two messages Dru just sent me, one of which is the Doodle poll to schedule the next call.

Hi Claire,

I'm happy to include you and Dustan. The subgroup was an action item from the last workshop. I had the impression that everyone was aware, so I'm sorry that you were out of that loop. We've just had one conversation about what a best practice for review of BMPs would look like, WP is putting together a draft, which we'll plan to circulate at the end of next week along with a list of potential criteria that should be included in a review.

Best,
Carrie

Carrie,

I'm in the dark about this BMP Workgroup that Dru is removing herself from, so in the future, could you copy me on correspondence about this sub-workgroups so that I know what's going on (not a big deal but I'm trying to keep full track of EPA's participation in the project). Also, I wonder if Dustan Bott would be a good person to have on the workgroup instead of Dru, since Dustan has previous experience with his work for the Nez Perce Tribe on agriculture BMPs, and now would be able to bring the compliance and inspection perspective to the discussion.

Hi Carrie;

I'm writing to say that I'm removing myself from the workgroup on BMPs. Since Bill Stewart is on the group, I don't think it is necessary to have two EPA folks on the subgroup. I'll support Bill if he needs assistance/ or my input, but I think Bill will be best at representing EPA.

Thanks

Dru
