Hi Claire,

This is the same deal as last time. I can be there if they want me to be but we have no travel money in this office that I am aware of. Please keep me in the loop for these plans as they unfold.

Bill Stewart

Team,

Our travel budget is still in such dire shape, I've let Bobby Cochran know none of us will be able to attend in person unless our travel costs are covered (food and lodging for all and transportation for Bill Stewart since the rest of us can drive in a government car). Please don't respond directly to Musa Jaman's message - I will take care of that once we get an official letter from Willamette Partnership inviting us to attend and offering to cover our travel costs because they believe our participation in the meeting in person is essential to its success. Then we have to go through the invitation travel ethics approval process as before, so we cannot make arrangements until that happens. I don't know how many slots they can afford to cover this time, but I told him I would give him the names of those who are able to attend – so please let me know if you are available to travel down to Portland and back June 5 and 6 (early morning departure and late evening return, I expect). I will then work with Bobby to figure out who needs to be there and that he can cover, and will let you know.

**Subject:** June JRA conference attendance confirmation request

Good morning,

Hard to believe, but it's already time to get ready for the June 5 and 6 JRA meeting to be held at Edgefield Lodge in Troutdale, OR. The agenda for this meeting will run like the April meeting with a 10am start on June 5 and a 4pm close on June 6. We'll be covering the following topics: Writing a TMDL to support trading--getting the load allocations and reasonable assurances right, discussing the role of trading, etc; What NPS need to do to meet baseline requirements before generating credits; Quantifying baseline and post-BMP conditions to establish credits; Processes for reviewing, calibrating, and approving credit quantification methods; and Determining and applying trading. This is the meeting where we'll want TMDL folks or others that are good on the technical side of quantifying water quality improvements. Let us know if you need more of an agenda to determine who from your agency should be there (we're likely to do some webinars prior to June 5/6 to get a head start on things like quantification tools).

I'm requesting your attendance confirmation by May 1st to place room reservations. Please note: As before (unless otherwise requested), we'll maintain room requests and room-share assignments to simplify lodging arrangements.

The location for this meeting is at the **Edgefield Lodge in Troutdale OR**. Lodging will be European-style with conveniently located common bathrooms down the hallway separate from each room.

Please let me know if you have any questions or require additional logistics and/or travel assistance. We look forward to seeing you!

Thank you,  
Musa
