

1/17/13 - JRA mtg w/ EPA, WP + JFT

Bobby  
Came > WP  
Neil Nelson

Joe Kwik  
Tim Wynn } JFT  
Karin Law

Claw  
Charlie  
Sonal  
Druk

Bills  
Dustin Boff  
Chae Park  
Bob Love (Ho)

WP Goal: Primary Truly put us on w/ & outcomes, improve  
accuracy & efficiency overall.

secondary  
Thyriable templates for other states

Signed agreement by consensus based process,  
templates.

for B. Parker / JFT

Min reports to generate a credit.

Build reports, reduce risk/cost

By doing a w & trade, unit as the  
benefit.

usable template for other state -

By the way see  
Unit of grade

Quantifying credits - what tools, literature  
methodology.  
unit could be used in each state, not  
into backbone

Analysis of requests -  
were/had funds get feedback, accessed by  
public

Charlie: size of market, challenges when NPS + C  
but have to reduce a lot.

Good to have plan parents to channel in help submit  
good ideas

Agreement to sign - with only getting to have  
to get things there in time.

### Authorities

Bob: Howard is interested for EPA to "pre-approve"  
vs. a judge jurisdiction, promises to follow  
EPA to review it more easily?

<sup>power</sup> Authority by 'no' to proposals that were  
as good - other things but as to what  
is the "good ground"

More commitment to make pre-TMDL, who make  
eg. funded but permit for a single plan  
only for insurance  
flood licensing.

TMDL development w/ trading considerations  
+ must do permit work first for the TMDL  
analysis to support trading which <sup>is</sup> <sup>the</sup> <sup>trading</sup> <sup>framework</sup>  
based on  
primary uses by restoring beneficial use  
w/in some waterbody  
(+ users to discharge credits)

Tools to quantify credits.
