Tim W.

If DER issues end of pipe limits w/o an approved TMDL, is trading an option?

will existing TMDLs stay on books? If so, NPDES permit can be issued w/ new state instead of basing it on existing WLA.

must follow NPDES reqs  
from sources

Permissible discharges - new sources policy - permit triggers more auditing  
2 in over a 30 day (ish) period  
must be a planned event  
procedure to do a budget  
a plan to mitigate to happen  
are NPS LA - Plato Creek decision

NRCS - 500 million/yr. just a riparian.  
psych: OR

should be well targeted - what is it getting funds for. TMDL objectives?

permitted part Pa. photochemical

extrapolate to Willamette Basin  
→ by 55 m. / yr. actually needed for Willamette Basin.  
valley floor must be restored.

① Ask identify what is already occurring - is there a unit used by others interested (e.g. etc al.)

How much about credits goes in the permit.

VA-6P may have language

EPA can be out. - front line demand  
is not there yet - states need  
to address baseline
