We will be bringing Nancy Kmet and Vince McGowan, who are NPDES permit writers.

We do not have a list of BMPs approved or prioritized for trading.

Helen

Hi,

We are getting a head count for Monday to get materials together and help EPA manage logistics. Will anyone else be coming up with you two?

Also, we have been looking at approved BMPs for different programs and was wondering if you have a list available of approved or prioritized BMPs for trading?

Thanks

Carrie
